CAT/DOG MESH EXAMPLES FOR SHIPPING FROM USA AIRPORTS

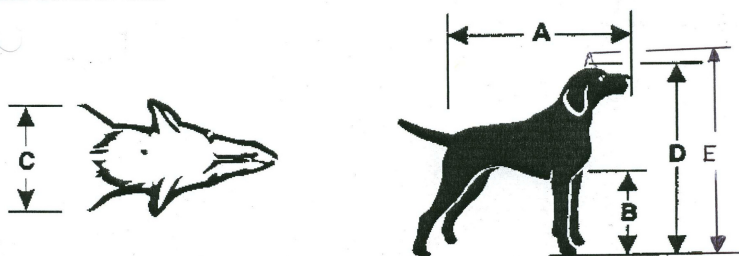

A variety of products can be used for Mesh. We recommend Plastic Garden Fencing *Dogs 1" Cats 3/4"

DOG MEASURING GUIDE FOR SHIPPING FROM USA AIRPORTS

NOTE: All measurements to be taken while the dog is standing tall. Measurements do not include hair.

- A. Length from nose to rump
- B. Height from floor to point of elbow
- C. Width at widest point of body – flesh, not hair
- D. Height from floor to top of head
- E. Additional measurement required to tip of ears for erect eared dogs

Must have 10cm space above top of head/ ears

Brachycephalic breeds must have one size larger crate than needed

Measure twice !!

We understand these regulations may seem overwhelming, please reach out with any questions.

Please take these guidelines very seriously - For your pets safety and wellbeing during travel both your agent and the airline will strictly enforce these regulations.

Any pet in a carrier not meeting guidelines will most definitely be rejected for flight.

Custom 3" Height extension kit

PP90 with 5" Height extension kit

All container requirements are set forth in the Live Animal Regulations (LAR) which are updated/modified frequently. Each Airline also have variations and additional regulations in addition to the LAR. For more info please visit: <https://www.iata.org/en/programs/cargo/live-animals/>
